

## Photo Quality InkJet Disc Printer

Fast and fabulous, high resolution 6-ink colour printing on CD/DVD

LSK introduces the ODP 200, a high professional working tool for industrial CD/DVD print applications and environments. The ODP 200 is available as a cost-effective stand-alone desktop unit or in-line with the LSK CD/DVD Duplication Systems.

### Photo-Realistic Images on CDs and DVDs

The ODP 200 is based on the most advanced Hewlett Packard thermal inkjet technology available today. Its professional performance is reflected especially when printing photo images up to 4800 dpi. When printing text or graphics the ODP convinces you with speed. Sharpness also for fonts, eye-popping colours and smooth colour gradients characterize medias printed with the ODP 200.

### Fast and Affordable Production

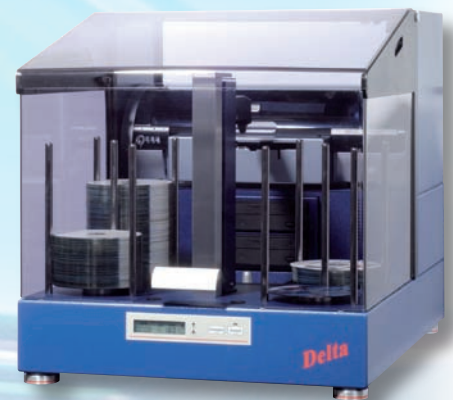

LSK's ODP 200 Printer incorporates HP's unique PhotoREt IV color-layering technology and the ColorSmart III color optimisation technology. Due to this the ODP 200 offers an ink droplet size of only 3 pico-liters. Each drop is placed fast and most precise. Further benefit is the economical aspect of the lowered ink consumption and the faster drying time. Together with the new six-ink colour capacity the ODP 200 guarantees realistic photo images, vivid colour output, and extremely sharp text printed on all types of inkjet media. Beside the standard colour cartridge with three colours (Y/M/C) an optional Photo Cartridge (LM/LC/B) all dye based, is available for the ODP 200.

### Most reliable Production through constant R&D

During an inkjet printing process aerosol debris enriched with colour particles arises. This may cause failure of the electronic and reduces the lifetime of wear and tear. Through LSK's constant R&D the ODP 200 comes with an exhausting system to extract colour mist during the printing. ODP 200 - For your best Image!

FACTS  
FACTS

FACTS

- Six-colour InkJet Printer
- HighResolution up to 4800 x 1200 dpi
- Inkjet Technology by Hewlett Packard
- Compact, small footprint design
- Comfortable disc inserting and removing
- Mac- and PC compatible

### ODP 200 In-Line Operation

Integrated in an LSK CD/DVD Duplicator you get an all-in one disc publishing system with the most advanced label printer available today. LSK's solid and reliable disc robotics retrieve and stacks discs from the input bin to recording, printing and to the output bin without operator intervention. The ODP 200 can be adapted to all LSK disc publishing systems.

ODP 200 Thermal InkJet Disc Printer

Specifications ODP 200	
<b>Print Technology</b>	Thermal Inkjet Printing
<b>Printing Resolution</b>	Up to 4800 dpi (driver selectable)
<b>Print Driver</b>	Windows 2000 and XP
<b>Droplet Size</b>	3 pl (pico-liter)
<b>Media Types</b>	Standard inkjet printable surface CD-R/DVD-R
<b>Print Modes</b>	Standard, Premium, Photo (Normal, best, max. dpi)
<b>Ink Cartridges</b>	
<b>Black, 19 ml</b>	Order Code (2016656B)
<b>Tri-color, 17 ml</b>	Order Code (2016657C)
<b>Photo, 17 ml</b>	Order Code (2016658P)
<b>Dimensions (W x H x D)</b>	449 x 145 x 370 mm <sup>3</sup>
<b>Net weight</b>	5,3 kg
<b>Input voltage</b>	100 V to 240 V / 50 Hz to 60 Hz
<b>Power consumption</b>	2 W max when off, 4 W average when idle, 30 W average when printing
<b>Interface</b>	USB 2.0 (USB 1.1 compatible)
<b>Certifications</b>	CE
<b>Basic Warranty</b>	One year limited
